Sir:

In response to the outstanding Office Action [Restriction Requirement] Applicants elect Group II with traverse. The traversal is in part, on the basis that Groups II, III and IV should be examined together, because of all these groups of claims are directed to use of anti-gp39 antibodies having a novel properly (non-agonistic) that renders them superior to anti-gp39 antibodies having agonistic properties.

Therefore, Applicants respectfully submit that claims 2-15 should be examined together.
